

WS02-CFSC1-JV3/EV3 Network Configurator Ver. 3.41 Release Note

WS02-CFSC1-JV3/EV3 Network Configurator is upgraded to Ver. 3.41.

1. Upgrades from Ver. 3.40 to Ver. 3.41

Network Configurator is upgraded from Ver. 3.40 to Ver. 3.41 as shown below.
Refer to the manual of the software for the upgrades in Ver. 3.40 or lower.

1.1. Improves logic editor stability

Solved the problem that the Network Configurator might terminate abnormally when the user-defined function block was used in logic editor.
